¹ The Carers' Survey is carried out biennially, and was first conducted in 2012-13; therefore there are no outcome scores for measures based on Carers' Survey data for 2013-14, 2015-16 or 2017-18

² 1F and 1H: Caution should be taken when comparing 2015/16 figures to previous years due to changes in the dataset. CIPFA values in 2017/18 are an average of the outcome scores of these Local Authorities rather than raw data

³ 1J: CIPFA values are an average of the outcome scores of these Local Authorities rather than raw data

⁴ 2A(1) and 2A(2): There were some small changes to the tables within the SALT return, which are used to calculate these measures. The impact on the scores is expected to be small but should be considered when comparing data from 2017/18 with previous years
